BCESC Head Start

Making A Difference

Butler County Educational Service Center
Head Start Program

Head Start is a federally funded preschool program which provides services for low-income families with children from ages three to five.

Head Start also helps families find agencies that assist with job skills development, employment searches, and family counseling.

BCESC Head Start is dedicated to improving the well-being of income eligible families by working with each family to identify their specific needs.

Head Start also reserves 10 percent of its enrollment for children with special needs.

Quality early education programs can play a critical role in families' lives by both fostering children's learning and development and by supporting parents.

Head Start serves more than 700 pre-schoolers in Butler County, offering health, nutrition, mental health, child development, parent involvement, and early education services.
