This is a ten week online course.

Start Date: **Monday, January 7, 2019**

End Date: **Saturday, March 16, 2019**

Description: The Innovator's Mindset is a fabulous read for educators of all ages and contents! (And yes! This also means administrators!) Join this professional book study and become rejuvenated. The author, George Couros, provides an amazing resource for all educators. He puts into words all the things you know in your heart is the right thing in education. He inspires you, the reader, to refocus on what is truly important in education. Reading the book reaffirms the positive thoughts and goals we all have.

Our book study will be housed in Schoology and include discussions, reflection points, as well as exploring various tech tools to further enhance your toolkit. We will tackle roughly one chapter per week. Join educators across the region in sharing thoughts, ideas, and the "Aha!" moments you are sure to have while reading *The Innovator's Mindset*.

Instructor: **Sarah Kiefer**
Instructional Specialist
